CHANGING LIVES – NAABI!

National Allergy Asthma Bronchitis Institute (NAABI) started its journey focussing a segment of medicine which was hitherto bypassed by most of the medical fraternities. NAABI is dedicated to diagnosis, documentation, care and research on allergy and airway obstruction. Innumerable numbers of people suffer from them. Very few get optimal care.

NAABI has two wings: clinical and research with spirometry lab, facilities for bronchoprovocation test, a complete allergy division, electronic data maintenance and a bunch of young energetic clinicians and researchers. We run 24hrs helpline -033-2290/2305, 09830330404. Our research has already earned international acclaim and award. We have among ourselves eminent pulmonologists and a highly reputable national and international faculty.

NAABI is received attention and we cater to patients from all over India and abroad. Our academic programs are immensely rewarding in your daily practice. Our clinical performance is exemplary. NAABI runs regular doctors' meet, urban and rural patient camps and media promotion against Obstructive Airway Diseases..
